

GENDER PAY GAP REPORT

2020

INTRODUCTION

Flight Centre Travel Group believes in equal opportunities for everyone. We are committed to having a diverse, equal and gender balanced workforce at all levels, ensuring we build a brighter future for our current and future employees.

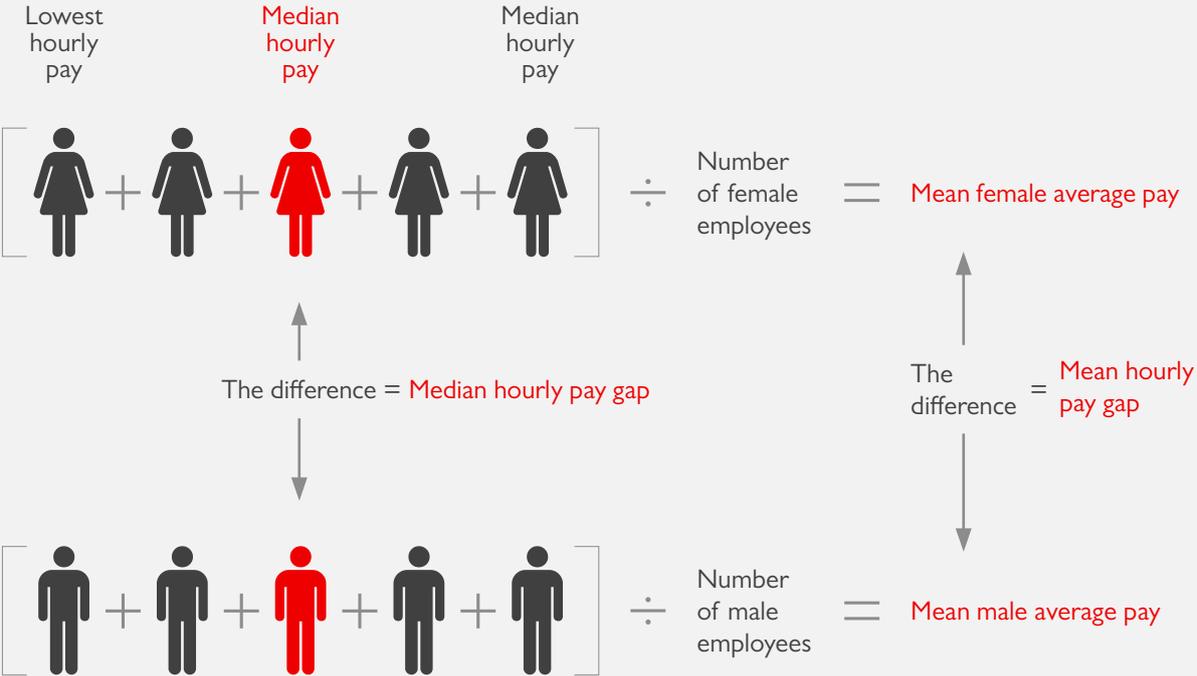

WHAT IS THE GENDER PAY GAP AND HOW IS IT CALCULATED?

Imagine if all employees stood in two lines (male and female) in order of lowest hourly rate of pay to highest.

The median gender pay gap is the difference in pay between the female employee in the middle of their line and the male employee in the middle of their line.

The mean gender pay gap shows the difference in average hourly rate of pay between men and women. This is also affected by the different numbers of men and women in different roles.

EQUAL PAY AND THE PAY GAP

The gender pay gap identified does not refer to equal pay. Equal pay is about men and women being paid the same amount for similar work.

Flight Centre firmly believes that any man or woman performing comparable roles should be paid equally and this is evidenced by the meritocratic wage models used across each division, brand and department.

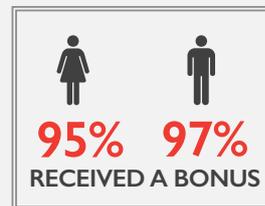

OUR RESULTS

Flight Centre UK report a median gender pay gap of **12% for hourly pay** in favour of men.

WHAT ARE WE DOING?

EGALITARIANISM AT FLIGHT CENTRE

With Egalitarianism established as one of the three core values within Flight Centre, we are well on our way to achieving a gender balanced workforce. We believe that each individual should have equal privileges and rights.

Ways in which we are creating a culture that supports women include:

FAST TRACK

Fast Track is a mentoring programme whereby high potential individuals are assigned a mentor from within Senior Management. Mentors ensure that the programme participants are career managed across a variety of roles giving them a broad experience in order to develop the skills required for roles within the Senior Management team. Currently, the Fast Track community is made up of **67% female participants**. This statistic continues to grow as we encourage more women to take on senior leadership roles.

MANAGEMENT TRAINING

Flight Centre UK invests heavily in continuous professional development through our Management and Leadership Pathway. This seven stage pathway ensures all employees have access to development throughout their Flight Centre career, irrespective of their role. This training equips employees with the necessary skills to excel in their career and provides managers with the toolkit required to fully understand our organisation, its customers and products to make their business a success. In addition to this all employees have access to a development suite, enabling them to take ownership of their personal development.

ENHANCED MATERNITY PAY

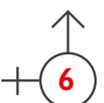

Flight Centre UK offers enhanced maternity pay as part of our strategy to better support women whilst they are on maternity leave and to assist in their return to the workforce.

In addition, all our family policies give parents equal time off to attend appointments and are inclusive of same sex couples.

In 2020 Flight Centre UK saw **87.5% of maternity leavers return to work**. This also reflects our commitment to flexible working. We have now introduced our Future Ways of Working which includes a hybrid working policy allowing our people to work from home two days a week.
